

## Photo-Sonics, Inc. Awarded Second MMTS Tracking System

Burbank, CA, June 2, 2010 – U.S. Army Program Executive Office (PEO) for Simulation, Training, and Instrumentation (STRI) has awarded Photo-Sonics, Inc. a contract modification to the Mobile Multi-Sensor Time-Space-Position-Information-System ([MMTS](#)).

The 14-month contract extension is from the U.S. Army Program Executive Office (PEO) for Simulation, Training, and Instrumentation. Under the terms of the extension, Photo-Sonics, Inc. will build a second Time-Space-Position-Information-System (TSPI) optical tracking mount.

"We are pleased to receive this contract modification and are looking forward to bringing the latest technology in TSPI optical tracking mounts into the field", said Philip Kiel, Photo-Sonics, Inc. Vice President. "We are committed to our core competency to further develop and enhance our optical tracking mount capabilities."

Photo-Sonics, Inc. is a world leader in the development of Time-Space-Position-Information-System (TSPI) optical tracking mounts, integration of technologies, and provider of motion analysis software applications to government and commercial customers worldwide.
